YOUR ADVANTAGES

- ▶ **SmartParts** offers 3D models of the HESS system that can be virtually rotated, faded in and out and displayed semi-transparently. This helps to identify spare parts precisely and increases understanding of the machine.
- ▶ Efficient search functions in the parts catalogue, documentation and wiring diagrams by component name, part number or equipment ID as well as filtering by maintenance-, wear- or critical parts
- ▶ Complete overview of documentation of the plant, including HESS and supplier documents
- ▶ Support with spare parts identification: The SmartParts add-on **PartsFinder** uses learning AI image technology for efficient identification and direct enquiry of spare parts.
- ▶ Optimised availability and storage: the HESS MaintenancePoint optimises the storage and availability of spare parts and tools. Labeled storage locations enable convenient reordering via **SmartParts**.

SCOPE OF SERVICE

- Customer-specific spare parts catalogue with 3D models
- Documentation incl. operating instructions and manuals in PDF format
- Optional add-on: Learning AI image technology software **PartsFinder**
- Optional support for spare parts management by HESS MaintenancePoint
