

SmartVision

Digital solutions for efficient curbstone manufacturing

With our SmartVision solutions and in cooperation with you, we can provide next-level support.

Find solutions efficiently = produce more efficiently

Use our TopWerk-SmartApp to connect quickly and easily to our Helpdesk staff.

Find solutions faster to minimize potential downtimes. Use live video streaming to troubleshoot together with the Helpdesk staff.

Overcome any language barriers with direct translation (audio into 9 languages, via chat in more than 140 languages).

You want to have both hands free for working while continuing to use our SmartVision support?

With our Hands-Free solution, you can start directly on your work while communicating with our Helpdesk agent via headset and microphone.

Other features:

- Impact-proof, spray water protected, dust-proof (IP66)
- Active noise suppression up to 90dB (machine noise is effectively suppressed during ongoing operation)
- Compatible with your safety equipment

Watch out the video at our YouTube-channel: <https://youtu.be/GB96fup62Qo>

To receive an individual quotation, please phone us or contact us via our app. Your portal to the next-level support!

SmartApp

In addition to SmartVision, you will get interesting information on our product portfolios and service products. Get to know our new, innovative spare parts order system and learn about our Training Academy. Enable the "news" function to make sure that you will never again miss out on any new development.
